

WEST BROS
FURNITURE

One of the best ways to insure the quality of the finish is to trust the name behind it. West Bros is known for our exquisite finishes, and numerous finishing steps to enhance and beautify the wood grain, to create a rich deep lasting glow. All West Bros. Furniture products offer an exceptional, synthetic "catalyzed" lacquer finish. This technology advanced finish provides the greatest protection obtainable on today's household furnishings. West Brothers Furniture goes one step further than other manufacturers to finish all table tops on both sides to prevent warping where temperature extremes are experienced, and in the finishing of drawer interiors.
